## ABOUT US

### WHERE WE ARE NOW

Since 1988 Romageco (Kenya) Limited has progressively expanded the automotive suspension and 4X4 market through conquest sales, and aggressive marketing to reach its present size and currently employs 120 staff with an annual turnover of upto USD 5M. We encompass the ethos of "BUY KENYAN BUILD KENYA".

We are original equipment (OE) suppliers to the motor vehicle assembly plants in Kenya for Isuzu East Africa and Hino for our Rob's Magic heavy duty shock absorbers as fitted to their buses and trucks. Our shock absorbers are designed specifically for Africa's tough terrain, and supported by very solid warranties.

Our growing blue-chip client portfolio includes;

- Toyota Tsusho Corporation
- Isuzu East Africa
- D.T. Dobie
- CMC Motors Group
- Kipeto Energy
- Tullow Oil
- Cfao Automotive
- DOSHI Motors Limited
- Lake Turkana Wind Power

We have a distributor network throughout Kenya, Uganda, Tanzania, Ethiopia, DRC, Burundi, Djibouti, Rwanda and Sudan in total 81 dealers.

We have also exported worldwide through major procurement companies such as;

- Kjaer Group
- Bukkehave
- R A International (Denmark)
- LTA (Denmark)

With the 'winds of change' in Kenya and the steady improvement of governance within the East Africa region, we are optimistic and continue to invest further.

In 1998, we launched our first 'Fitment Centre - Rob's Magic Autocare Centre Nairobi, so that our specialised products could be fitted with our particular expertise and professionalism. In 2001, we opened a similar centre in Mombasa. Our success can be attributed to quality products and that "SPECIAL" service in addition to our goal of being SAFETY DRIVEN ANYTIME, ANYWHERE.

In 2009 we opened one of the largest suspension and 4X4 centres in Africa. This state of the art facility is a sight to behold. 28,000 sq .ft, epoxy floored workshop catering for upto 70 vehicles per day and a splendid 4X4 show room add to the aura of walking into this magnificent facility on 19 Commercial Street, off Bunyala Road in Nairobi.

In January 2019 we officially opened our new CKD Assembly plant along with an additional specialized fabrication facility with a total area of 30,000 sq. ft in Mlolongo situated on the outskirts of Nairobi.

The facilities at our Mlolongo fabrication plant include:

- CNC Plasma Cutting
- CNC Tube Bending
- CAD Design
- Shot Blasting
- Powder Coating
- Specialised Metal Fabrication

Our CKD (Complete Knock Down) assembly of TJM Australia 4X4 products use skilled Kenyan labour and locally sourced materials and we have adopted the KAIZEN philosophy of continuous improvement.

We are the largest dealer in the world for Bull Bars to TJM Australia and their only CKD assembler.

## OUR PRODUCTS

### SHOCK ABSORBERS

#### ROB'S MAGIC 4X4 SHOCK ABSORBERS

These legendary telescopic Gas/hydraulic shocks have been steadily improved for the last 32 years. Today's shocks boast comfort as well as ruggedness. With the aid of the latest valving you are assured of super comfort. Using big bores 36/40/50mm\* and high temperature fluids these special shocks have what it takes to cater for Extreme African Terrain.

**1 YEAR OR 30,000 KMS WARRANTY.**

**1 YEAR OR 100,000 KMS WARRANTY. \***

#### ROB'S MAGIC STRUT, TELESCOPIC AND SPRING SEAT SHOCK ABSORBERS

Rob's Magic strut, telescopic and spring seat shock absorbers are gas assisted for a superb ride at an affordable price and make an excellent, comfortable and great value.

Rob's Magic shock absorbers come with a one year or 30,000 Km warranty and available for most Toyota and Nissan cars plus many others. A free bump stop and dust cover is included plus FREE fitting.

**1 YEAR OR 30,000 KMS WARRANTY**

#### TJM XGS 4X4 GAS SHOCK ABSORBERS

TJM XGS Suspension is designed to elevate your vehicle's core potential and your own driving experience. An XGS Suspension upgrade will make your 4WD more comfortable over changing terrain while improving how it responds while braking, accelerating and cornering. Meanwhile, in addition to added ground clearance for touring and four-wheel driving, XGS Suspension offers outstanding load-carrying and towing capabilities compared to your vehicle's standard suspension system.

**1 YEAR OR 30,000 KMS WARRANTY**

## SUSPENSION BUSHES

### ROB'S MAGIC POLYURETHANE BUSHES

Polyurethane is an ideal material for making into suspension bushes. Its combination of high tensile strength and elasticity translates into immense durability in the toughest conditions. Polyurethane Bushes have excellent resilience, springing back into shape effortlessly to absorb shock and prevent dirt ingress and wear. Lastly, it doesn't age or perish - rubber bushes both perish and are attacked by Oils, Fuels and Ozone .

#### Advantages:

- Impressive and confident ride
- Excellent noise damping
- Sharper turn in - predictable cornering
- Controlled suspension movement
- Reduced body roll
- Designed & engineered to exact specifications
- Pure materials, immense flexibility & resilience
- Fit & forget - excellent longevity

**1 YEAR OR 30,000 KMS WARRANTY**

## PARABOLIC SPRINGS, ELLIPTICAL SPRINGS AND HIGH LIFT GREASABLE SHACKLES

Made from the highest quality raw materials to give years of life under the harshest conditions.

Parabolic springs offer a superb ride.

Our heavy duty Elliptical springs include wrap around second leafs for greater safety.

Our raised shackles with grease nipples are legendary and help retain body lift.

**1 YEAR OR 30,000 KMS WARRANTY**

## COIL SPRINGS

### ROB'S MAGIC COIL SPRINGS MADE BY KING SPRINGS AUSTRALIA

Our special springs are developed specifically for African Terrain to Rob's Magic unique specification. Not only do they raise the vehicle, particularly important for ex-Japanese saloon cars but the slightly stiffer spring rides the rough roads better and your shocks will last longer. These springs come in various types, Linear, Progressive and Tapered Wire.

**1 YEAR OR 30,000 KMS Warranty.**

## STEEL ROOF RACKS

### TJM ROOF RACKS

We assemble CKD TJM roof racks here in Kenya at our Mlolongo factory. Romageco Kenya has manufactured roof racks under licence for 24 years. We have our own shot blasting and powder coating facility to match the quality standards required by TJM Australia.

Made from heavy duty steel for durability for the serious off-roader which can be modified to carry Hi Lift jacks, Jerry cans, Extra Spare wheels, Water Tanks, Roof tents, Awnings etc.. Trays can be made from quarter length to full length and are attached with stainless steel fasteners to fit into the roof gutters.

## SNORKELS

### TJM AIRTEC SNORKEL

Fitting a TJM Airtec Snorkel means the air supply is drawn from roof level providing cooler and cleaner air to the engine.

Because the air supply is drawn from roof level, dust is not as thick and plentiful as in the engine bay or inner guard. This will help extend the life of the air cleaner element, therefore reducing the wear of vital components.

With the positively sealed TJM Airtec Snorkel, well above water level, you can expect worry-free water crossings.

When driving along the open road, the TJM Airtec Snorkel creates what's known as a ram air effect, that has often been found to increase engine performance.

## ROOF TOP TENTS

### TJM ROOF TOP TENTS

TJM roof top tents are ready within minutes, so you can relax and enjoy the great outdoors. There's plenty to love about high rise camping where the views are better and less sand gets transported into your tent. Not to mention extra security with our abundant wildlife, this contributes to a more restful nights' sleep. Manufactured from long-lasting poly/cotton breathable fabric, the Boulia and Yulara roof top tents are mould resistant, waterproof and fit neatly onto the roof of your 4x4.

## WINCHES

**HYDRAULIC WINCH**

**ELECTRIC WINCH**

### T-MAX WINCHES

We are the distributors of T-Max Products. T-Max winches are great quality products that have stood the test of time.

T-Max winches have been thoroughly tested in Africa and Australia for the 4X4's, car carriers, trucks and farmers for over 19 years. With a pulling capacity of 9000LBS - 18500LBS 12v OR 24v.

## DUAL BATTERY MONITORING SYSTEM

### T-MAX DUAL BATTERY SYSTEM

A complete split charge system with LED battery monitor, designed for a dual battery systems.

The monitor displays the voltage of both batteries and the charge voltage whilst charging them with an alternator, solar panel or any other 12v Charge source.

The batteries are automatically linked through a 250A continuously rated solenoid when a charging voltage of over 13.3v is detected. The batteries are automatically isolated when discharging. In emergency situations a manual override function to link the batteries can be actuated. This is useful for extra power when starting the vehicle if power is low in the main start battery or winching applications when a longer period of constant power is needed.

**BESPOKE FABRICATION**

# BUY KENYAN BUILD KENYA

**Romageco (K) Limited is a highly respected company in Africa with a vast portfolio of supplier, autocare and manufacturing abilities. We have expanded our fabrication and manufacturing for specialised steel/aluminium products to a 30,000sq ft facility in Mlolongo . Our expansion has included at great expense the state of the art, CAD/CAM plasma cutters for very accurate steel/aluminium plate cutting. Our investment encompasses the very best computer controlled tube bending and profile cutting equipment from America, including a powder coating oven for a very tough finish to our final products to further add to a quality appearance. We adhere to Kaizen working practices.**

**We employ a skilled labour force of 40 highly qualified engineers in welding, fabrication and computer design. As such Romageco (K) Ltd is very qualified to manufacture and fabricate high quality products which are superbly finished with oven baked powder coatings. Our CKD TJM bull bars are equally famous and produced here in our factory and exported to 12 different countries including Dubai and Europe and we take advantage of the COMESA trade agreements for exports into Africa.**

**Rob's Magic is the brand of choice in the automotive industry supplying Original Equipment (OE) to Toyota, Nissan, Ford and Isuzu, therefore you are assured of the finest quality, integrity and the warranty of being associated to the cream of the motor industry.**

## ROLL OVER PROTECTION STRUCTURES

After manufacturing roll cages for 25 years for motorsport , in 2008 Romageco found a gap in the market to supply and manufacture Roll Over Protection Structures to the East African market for the Oil, Gas and Petroleum (OGP) plus Mining companies. All our ROPS are manufactured in Kenya and carry a safety certificate and registration.

The ROPS manufactured by ROMAGECO Kenya Ltd. are designed to augment the existing cabin strength and to reduce the cabin crush and therefore reduce the potential for injuries in a rollover. These are made to OGP and Mining standards and we use flame retardant foam padding.

Due to the sensitivity of the standards and practices within the OGP, Exploration and Mining industries, we understood that the final product has to be manufactured with precision: safety being the priority. The Mining and OGP Industries have very different specifications and follow clearly defined protocol differentiations. Romageco Kenya Ltd. is experienced in both protocols.

New vehicles are studied and scrutinized prior to the fitment of ROPS to determine maximum safety, space saving, air bag intrusions and compatibilities. With that technical drawings are issued, so that the client better understands the fixations to the vehicle and the sizing of the structure.

Because we supply to the OGP and Mining industries, we take safety very seriously. All of our Roll Over Protection Structures are put through rigorous testing to ensure they comply to client specifications.
